

Bar Graph

Name: _____

Date: _____

A shopkeeper recorded the number of stationary items sold. Draw a bar graph to represent the data and answer the questions.

- 1) What item is the customer's second choice?

| | |
|---------------------------------|------------------------------|
| <input type="radio"/> Sharpener | <input type="radio"/> Pencil |
| <input type="radio"/> Pen | <input type="radio"/> Book |

- 2) How many Books and Pencils were sold in all?

| | |
|--------------------------|--------------------------|
| <input type="radio"/> 30 | <input type="radio"/> 21 |
| <input type="radio"/> 18 | <input type="radio"/> 27 |

- 3) Suppose 20 more Pens sold, how many Pens would sell?

| | |
|--------------------------|--------------------------|
| <input type="radio"/> 45 | <input type="radio"/> 24 |
| <input type="radio"/> 23 | <input type="radio"/> 38 |
