Name: $\qquad$
$\qquad$

## Solve each problem.

1. What is the ratio of squares to diamonds?

2. What is the ratio of triangles to hexagons?

3. What is the ratio of hearts to parallelograms?

$$
\begin{aligned}
& \bullet \\
& \bullet \\
& \bullet \\
& \square
\end{aligned}
$$

4. What is the ratio of stars to diamonds?

$$
\begin{aligned}
& \star \star \star \star \star \star \star \\
& \star \star \star \star
\end{aligned}
$$

5. What is the ratio of trapezoids to hearts?

Name: $\qquad$
