

Name: _____

Date: _____

More Practice with Cause and Effect

Remember that one way to describe the relationship between events is to look at **causes** and **effects**. A **cause** is why something happens; an **effect** is what happens as a result.

Example: Connor left his homework on the bus, so he got a zero on the assignment.

Cause: he left his homework on the bus Effect: he got a zero

Read each scenario and identify the cause and effect.

1. My birthday party is today, but Will cannot come because he has the flu.

Cause: _____

Effect: _____

2. The game was tied, but the batter on the other team hit a homerun and we lost by 1.

Cause: _____

Effect: _____

3. My mom ran over a nail on the way to work, so when she came out to go home, her tire was flat.

Cause: _____

Effect: _____

4. I left my history book at school, so I cannot study for the test that is tomorrow.

Cause: _____

Effect: _____

5. The store closes at 8:00, so we will have to wait until tomorrow to get what we need for our project.

Cause: _____

Effect: _____

Name: _____

Date: _____

Answers More Practice with Cause and Effect

Remember that one way to describe the relationship between events is to look at **causes** and **effects**. A **cause** is why something happens; an **effect** is what happens as a result.

Example: Connor left his homework on the bus, so he got a zero on the assignment.

Cause: he left his homework on the bus Effect: he got a zero

Read each scenario and identify the cause and effect.

1. My birthday party is today, but Will cannot come because he has the flu.

Cause: _____ Will has the flu _____

Effect: _____ he cannot come to the party _____
