Date: \_\_\_\_\_

Choose the correct answer.

- Which number is a factor of 20, but not a multiple of 4?  
 8       5       6       12
- Which number is a factor of 24, but not a multiple of 6?  
 8       12       10       7
- Which number is a factor of 21, but not a multiple of 7?  
 4       3       5       3
- Which number is a factor of 18, but not a multiple of 2?  
 6       8       4       9
- Which number is a factor of 8, but not a multiple of 4?  
 3       2       5       6
- Which number is a factor of 22, but not a multiple of 2?  
 11       6       4       7
- Which number is a factor of 14, but not a multiple of 2?  
 3       4       7       5
- Which number is a factor of 24, but not a multiple of 2?  
 6       8       4       3
- Which number is a factor of 12, but not a multiple of 2?  
 8       6       3       4
- Which number is a factor of 16, but not a multiple of 8?  
 4       12       6       10
