

Complementary Angles

Name: _____

Date: _____

Find the value of angle 'x' in each set of complementary angles.

1)

$\angle x =$ _____

2)

$\angle x =$ _____

3)

$\angle x =$ _____

4)

$\angle x =$ _____

5)

$\angle x =$ _____

6)

$\angle x =$ _____

7)

$\angle x =$ _____

8)

$\angle x =$ _____

Complementary Angles

Name: _____

Date: _____

Find the value of angle 'x' in each set of complementary angles.

1)

$\angle x = \underline{65^\circ}$

2)

$\angle x = \underline{60^\circ}$

3)

$\angle x = \underline{10^\circ}$

4)

$\angle x = \underline{35^\circ}$

5)

$\angle x = \underline{25^\circ}$

6)

$\angle x = \underline{50^\circ}$

7)

$\angle x = \underline{70^\circ}$

8)

$\angle x = \underline{75^\circ}$
