

Volume of Rectangular Prism

Name: _____

Date: _____

Find the volume of a rectangular prism?

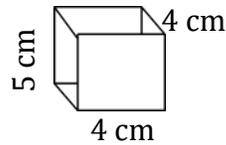

1)

V = _____

V = _____

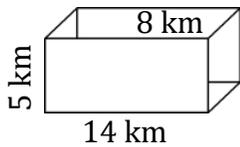

2)

V = _____

V = _____

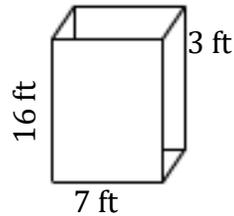

3)

V = _____

V = _____

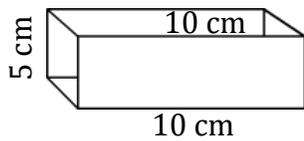

4)

V = _____

V = _____

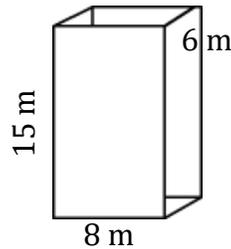

5)

V = _____

V = _____

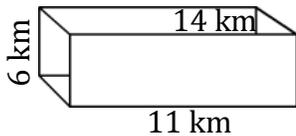

6)

V = _____

V = _____

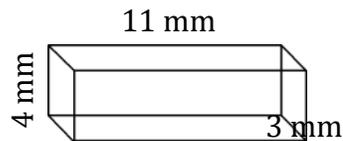

7)

V = _____

V = _____

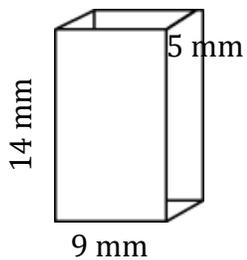

8)

V = _____

V = _____

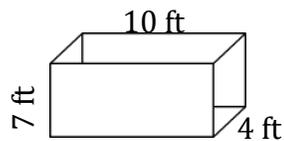

9)

V = _____

V = _____

10)

V = _____

V = _____

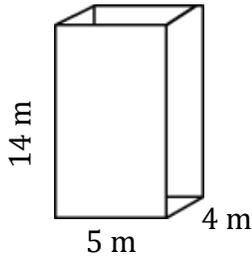

Volume of Rectangular Prism

Name: _____

Date: _____

Find the volume of a rectangular prism?

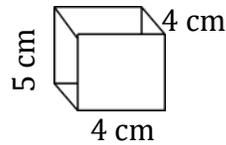

1)

$$V = \underline{5 \times 4 \times 14}$$

$$V = \underline{280 \text{ m}^3}$$

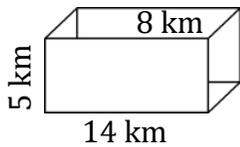

2)

$$V = \underline{4 \times 4 \times 5}$$

$$V = \underline{80 \text{ cm}^3}$$

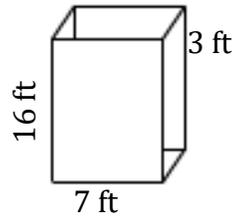

3)

$$V = \underline{14 \times 8 \times 5}$$

$$V = \underline{560 \text{ km}^3}$$

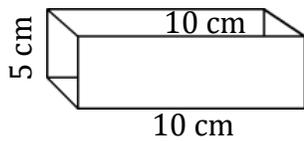

4)

$$V = \underline{7 \times 3 \times 16}$$

$$V = \underline{336 \text{ ft}^3}$$

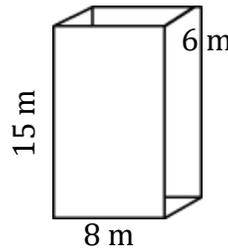

5)

$$V = \underline{10 \times 10 \times 5}$$

$$V = \underline{500 \text{ cm}^3}$$

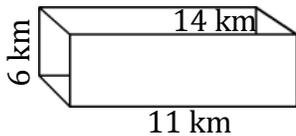

6)

$$V = \underline{8 \times 6 \times 15}$$

$$V = \underline{720 \text{ m}^3}$$

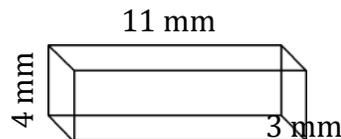

7)

$$V = \underline{11 \times 14 \times 6}$$

$$V = \underline{924 \text{ km}^3}$$

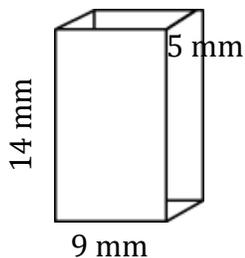

8)

$$V = \underline{11 \times 3 \times 4}$$

$$V = \underline{132 \text{ mm}^3}$$

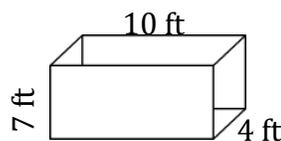

9)

$$V = \underline{9 \times 5 \times 14}$$

$$V = \underline{630 \text{ mm}^3}$$

10)

$$V = \underline{10 \times 4 \times 7}$$

$$V = \underline{280 \text{ ft}^3}$$
