

Probability

Name: _____

Date: _____

The fruits pictured below are pineapple, grapes, kiwi and apple. They are placed in a bag and one is drawn at random.

1) How many total fruits are in the bag?

2) What is the probability of drawing pineapple from the bag?

3) What is the probability of drawing apples from the bag?

4) Which fruit is most likely to be drawn from the bag?

5) If six more apples were added to the bag, what would be the probability of drawing a apple from the bag?

6) Which fruit is least likely to be drawn from the bag?

7) If two kiwis were reduces to the bag, what would be the probability of drawing a kiwi from the bag?

8) If four apples and two grapes were added to the bag, what would be the probability of drawing from the bag?

Probability

Name: _____

Date: _____

The fruits pictured below are pineapple, grapes, kiwi and apple. They are placed in a bag and one is drawn at random.

- 1) How many total fruits are in the bag?

16

- 2) What is the probability of drawing pineapple from the bag?

7 out of 16

- 3) What is the probability of drawing apples from the bag?

2 out of 16

- 4) Which fruit is most likely to be drawn from the bag?

Pineapple

- 5) If six more apples were added to the bag, what would be the probability of drawing a apple from the bag?

8 out of 22

- 6) Which fruit is least likely to be drawn from the bag?

Apple

- 7) If two kiwis were reduces to the bag, what would be the probability of drawing a kiwi from the bag?

2 out of 14

- 8) If four apples and two grapes were added to the bag, what would be the probability of drawing from the bag?

11 out of 22
