

Probability

Name: _____

Date: _____

William had the letters tiles pictured below. They are placed in a box and one is drawn at random. Each time William draws one, he writes down the letter and places it back in the box.

- 1) What is the probability that William will draw the letter G from the bag?

- 2) Is William more likely to draw a vowel or a consonant from the bag?

- 3) What is the probability that William will draw the letter B from the bag?

- 4) What is the probability of William drawing one of the letters found in the word JUICE?

- 5) What is the probability of William drawing a letters that **is not** found in the word BAG?

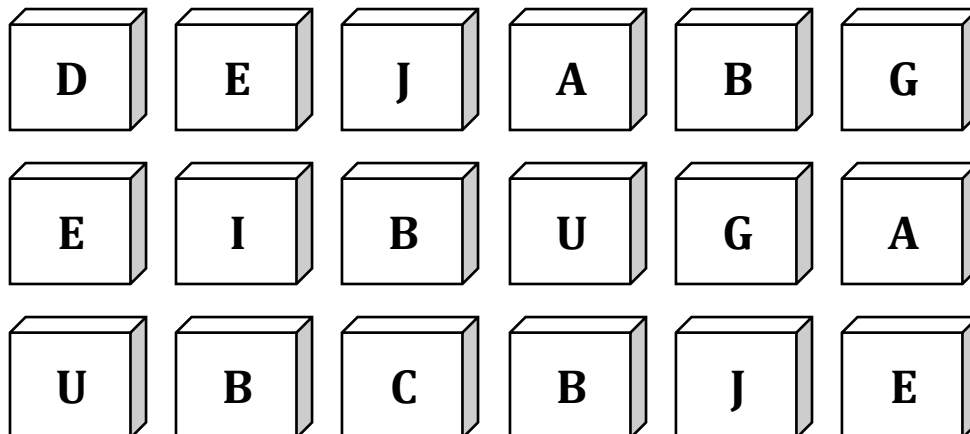

- 6) What is the probability of William drawing one of the letters found in the word GUAGE?

Probability

Name: _____

Date: _____

William had the letters tiles pictured below. They are placed in a box and one is drawn at random. Each time William draws one, he writes down the letter and places it back in the box.

- 1) What is the probability that William will draw the letter G from the bag?
